

Vincie Pan

Global Operations & Development Professional | Cloud, Digital Transformation & Cross-Border Program Management
Washington, DC · vincie.pan@gmail.com · +1 571-579-0427 · [july44944.github.io](https://github.com/july44944)

Operations and digital transformation professional with 8.5 years of experience delivering institutional-scale programs across emerging markets. Four and a half years embedded within a sovereign cloud platform serving UAE government and enterprise clients — owning delivery, governance, and cross-cultural stakeholder management for a system supporting M in monthly recurring revenue. Deep firsthand understanding of how digital infrastructure, institutional accountability, and multi-stakeholder coordination intersect in developing and emerging market contexts. Independently designed and deployed two AI-assisted tools applying responsible AI governance principles. Traveled and worked across 40+ countries; trilingual. Currently pursuing STEM MS in Management and Data Analytics in Washington, DC — minutes from major international institutions.

PROFESSIONAL CERTIFICATIONS

AWS Certified Solutions Architect – Professional	Amazon Web Services
AWS Certified Machine Learning – Specialty	Amazon Web Services
HCIE Cloud Service Solutions Architect – Expert	Huawei
HCIP Cloud Service Solutions Architect – Professional	Huawei
Project Management Professional (PMP®)	PMI
Certified Business Process Professional (CBPP®)	ABPMP

INDEPENDENT PROJECTS — DIGITAL TRANSFORMATION FOR INSTITUTIONAL EFFICIENCY

Self-directed projects applying AI-assisted development to real operational and accessibility challenges — with deliberate attention to where automation should, and shouldn't, make decisions.

- **CloudCost Lens — Multi-Cloud Cost Optimization Dashboard:** Built a client-side FinOps tool parsing AWS/Azure/GCP/Huawei Cloud billing data to generate ranked cost-saving recommendations — designed for resource-constrained organizations managing multi-cloud environments across jurisdictions. ([july44944.github.io/cloudcost-vincie](https://github.com/july44944/cloudcost-vincie))
- **HalalCheck — Ingredient Risk Screening Tool:** Designed for GCC-region grocery retailers to screen imported products against a maintained risk database. Deliberately limited AI's role to text extraction, keeping all compliance judgment rule-based and human-governed — a practical case study in responsible AI system design for regulated, culturally-sensitive contexts. PROFESSIONAL EXPERIENCE

Senior Operations Engineer | *CSI Interfusion Technology Service (Core42 & Huawei Cloud)* · Abu Dhabi, UAE | Jan 2021 – Jul 2025

Embedded within UAE's sovereign cloud (Core42) and Huawei Cloud Middle East, delivering enterprise-scale digital infrastructure for government and multinational enterprise clients across a multicultural, multi-jurisdictional environment.

- **Institutional Platform Governance:** Feature Owner for sovereign cloud billing platform serving UAE government and enterprise accounts; owned compliance, auditability, and 100% on-time delivery for a system generating M/month in recurring revenue
- **Cross-Cultural Stakeholder Management:** Served government and enterprise clients across 30+ countries; coordinated between Chinese headquarters and Middle East client base, translating institutional expectations across cultural and organizational lines
- **Process & Institutional Effectiveness:** Redesigned core workflows using Agile/Lean methodologies, cutting processing cycle time by 50% and improving fulfillment efficiency by 70%

- **Data-Driven Decision Systems:** Designed and deployed churn prediction analytics informing retention strategy across Middle East markets, reducing client attrition by 25%
- **Organizational Capacity Building:** Built 3-tier regional support framework and structured knowledge management system, reducing cross-team communication costs by 30% and operational risk by 25%; developed training programs for regional teams

Operations Manager | *Happiness Sharing Cruise Management · Shenzhen, China* | Jun 2018 – Jul 2020

- **Platform & Program Operations:** Managed end-to-end digital platform operations and cross-functional vendor coordination; improved customer satisfaction by 35% through data-driven service redesign
- **Product Development:** Led development of new service offerings aligned with market demand; expanded distribution partnerships and channel reach

E-Commerce Operations Lead | *Shenzhen Icheckkey Technology · Shenzhen, China* | Jun 2016 – Jun 2018

- **Cross-Border Program Management:** Managed multi-region supplier and logistics partnerships across North America, Southeast Asia, Middle East, Europe, and Latin America; reduced procurement costs by 20% through market-specific negotiation strategy
- **Standardization at Scale:** Built global multi-site SOPs enabling consistent execution across culturally and operationally distinct markets

SKILLS

Global Ops	Cross-border program delivery, multi-stakeholder coordination, sovereign cloud governance, emerging market operations
Cloud & Data	AWS (Solutions Architect – Pro), Huawei Cloud (HCIE Expert), AWS ML Specialty, IaaS/PaaS, cloud BSS platforms
Digital Transformation	AI-assisted product design, responsible AI governance, process automation, workflow digitization
Process & PM	Business Process Design (CBPP), Project Management (PMP), KPI frameworks, Agile/Lean, knowledge management
Languages	Mandarin Chinese (Native) · English (Professional) · Japanese (Basic) · 40+ countries traveled

EDUCATION

M.S. Management and Data Analytics (MSMDA) — STEM

University of North America · Washington, DC · Spring 2026 – Expected 2028
B.S. Economic Management · Zhejiang A&F University, China · 2016

Relevant coursework:

Big Data Analytics · Econometrics
Data Visualization · Statistics
Advanced Analytics · Project Mgmt
